

Stud Service

Stud fees for all of our boys are set at \$2,500 for two collections of fresh, chilled semen. A \$1,000 non-refundable, non-transferable service/handling fee is available as a convenience for known, reputable breeders. The fee includes two semen collections, extenders, semen evaluation, boxes and delivery to and from the shipping facility. Fees are due upfront and prior to the first shipment of semen; no exceptions. The remaining \$1,500 is due within 7 days after 2 or more live puppies are whelped. If one puppy results, no further money is owed. If stud fee is paid upfront in its entirety, and one or zero puppies result, a free re-breed is given and must be used within 2 years.

The bitch owner is responsible for all shipping charges, which can be pre-paid with either a credit card or a FedEx or UPS account number.

We require that progesterone testing on the bitch be utilized to determine the optimal date of shipping and insemination.

If you are inquiring about frozen semen, please e-mail for information and cost. Please contact by email at overlookmtlabradors@gmail.com
