

## Stud Service Contract

This contract guarantees the provision of stud service as outlined below. It does not guarantee pregnancy or puppies. Successful breeding is defined as the whelping of two (2) or more live puppies forty-eight (48) hours after birth. If one (1) live puppy results, no further stud fee balance is due.

### Stud Fee

Stud fees for all Overlook Labradors stud dogs are \$2,500 USD. This fee includes two collections of fresh, chilled semen. A \$1,000 non-refundable, non-transferable service/handling fee is required upfront. The fee includes semen collection, extenders, semen evaluation, shipping boxes, and delivery to and from the shipping facility. The remaining \$1,500 balance is due within two (2) days after the whelping of two (2) or more live puppies.

If the full stud fee is paid upfront and one (1) or zero puppies result, a free re-breed is granted and must be used within two (2) years.

### Shipping Responsibility

The bitch owner is responsible for all shipping charges. Payment may be made with a credit card, FedEx account, or UPS account.

### Veterinary Requirements

Progesterone testing of the bitch is required to determine the optimal date for shipping and insemination. Accurate timing is essential for breeding success.

### Frozen Semen

If you are inquiring about frozen semen, please email Overlook Labradors for information and cost details at [overlookmtlabradors@gmail.com](mailto:overlookmtlabradors@gmail.com).

### Obligations of the Bitch Owner

The bitch owner is responsible for all veterinary expenses related to preparation, testing, and insemination procedures. It is the responsibility of the bitch owner to notify Overlook Labradors once the bitch has whelped.

## Litter Registration

The bitch owner is responsible for completing the litter registration application with the American Kennel Club (AKC) or other breed registry. Overlook Labradors will not sign litter registration paperwork until all fees, veterinary, and shipping costs have been paid in full.
